

Meetings are held in the Plant Society Building. There is limited parking close to the building. The entrance gate has a chain link fence. The club typically has a member stationed at the gate 30 minutes before and 15 minutes after meeting start time. They will open the gate. If no one is at the gate there is a number for security on the gate. If called they will come and open the gate. Parking is along the north (right) side of the road as you drive toward the Plant Society Building.
